

## Client Quotes

We specialize in satisfied customers!

### 'DM SOS!' - Data Modeling Set of Standards

"We have relied on Axis Software Designs' modeling infrastructure product, 'DM SOS!' (Data Modeling Set of Standards) to enable us to promote the reusability and standardization of enterprise data assets.

DM SOS! has saved us significant time and money in establishing our model management infrastructure. Rather than determining and writing our standards and procedures from scratch, DM SOS! has given us a tremendous head start by providing all the robust standards, procedures and forms necessary to successfully manage our expanding modeling environment. We easily customized the content for our specific environment.

DM SOS! is a key component of our enterprise data strategy."  
**RadioShack – Ft. Worth, TX**

### Education

"Very good, one of the best training courses I have ever attended. Well done!"

**Johnson & Johnson - Paris, France**

"I now understand material that I've read and didn't get..."

**Fireman's Fund - Novato, CA**

"I really enjoyed the class. The content is very relevant, and I feel like I really learned it. There was so much (material) in the class, and you really kept it interesting. Thanks!"

**LifeScan - Milpitas, CA**

"Very entertaining and enthusiastic presentation. I will forward your name to others and recommend that they consider your classes."

**US Navy - San Diego, CA**

"Very good class. Very relevant to my work. This class will definitely improve my productivity."

**Accenture – Chicago, IL**

"I wish I had taken this class years ago! It gave me the whole picture of data modeling from inception to implementation and beyond! Thank you very much."

**Premier Inc. - Chicago, IL**
